

Carillion promotes Environmental Education in Tobago

Case Record

Company Carillion Caribbean

Location Trinidad

Social Initiatives

Provision of funds for the the promotion of the environment through education and training.

Carillion (Caribbean) Limited recently contributed TT\$1,000 to Environment Tobago for the promotion of the environment through education and training

Environment Tobago is a non-profit organisation in Tobago which conducts outreach environmental education programmes for primary and secondary schools. This involves visiting schools with a Traveling Eco-Classroom inclusive of a poster exhibition, a mini library, games, models and slide and video presentations.

After these visits the children will then be invited to attend an Eco-camp which will allow them to experience nature first hand and reinforce what they learnt via the Eco-classroom.

Outreach to the public is also being carried out through hosting public events such as seminars, workshops and lectures. You can log on to their website at: www.scssoft.de/et to find out more about their achievements and how you can help.

This donation forms part of Carillion's overall strategy for enhancing environmental awareness and commitment not only amongst its employees but also the wider national community.
