

Carillion Caribbean Runs for Charity

Case Record

Company Carillion Caribbean

Location Trinidad

Social Initiatives

Charity fun run

Carillion Caribbean Limited recently sponsored a team to participate in the Rotary Club of Port-of-Spain's Charithon 2001 Relay Race.

The Rotary Club staged its Eighth Annual fundraising event, at the King George V Park in Port-of-Spain. The proceeds of the event will allow the Club to maintain and develop several further programmes to assist persons with disabilities throughout the country.

One of the Club's major projects is the promotion of the International Institute for Healthcare and Human Development which is involved in training for the physically challenged.

Four members of Carillion's staff entered the run for charity which was organised by the Road Runners Club of Trinidad and Tobago.

The event was an overall success and very competitive with many national runners participating. C(C)L's team placed 4th in the Corporate Category with an overall time of 44 minutes and 46 seconds.
